

Benjamin Barber

Vance, state of Oregon

Motion for reconsideration

Case no. 16-cv-02105-AC
for Judge Simon

FILED OCT 17 10:35 AM 2017

The deadline set was October 12th. Barber had an Lay advocate send the DVD containing the video, another Lay advocate sent the original application sent to this Court previously, because he got it directly from the Court filings. Further it appears the documents I did send like a memo containing logical formulas "Proofs" does not appear, and documents I did send initially were not sent to you. Also I see there are three law clerks working this case, so I don't really know then who is handling the case the judges or the clerks and therefore who is in error because things don't add up.

I am going to request you personally "take judicial notice" the Complaint (and dmca filings in april 2015)

↳ "Memorandum in Support of Claim 1"

↳ "Claim 1 exhibits" (Judges Copy should be sent to 9th circuit)
